

Introducing the

EQUALIZER

The New Name in Sport Wheels

You spoke, we listened. Designed for today's athlete – responsive, durable and easy to maintain.

The 48-spoke, 4 cross lacing pattern provides superior rotational rigidity and impact resistance

- 24 – Radial laced spokes increase side load integrity w/camber
- 24 – Cross laced spokes increase wheel rotational stiffness (start faster, quicker turns)
- 14 gauge black stainless steel spokes
- Double wall black anodized rim – optimized for weight and strength
- 12-tab hand ring compatibility (559mm and 590mm 48H only)

Wheel Specifications:

- Weight – 953 grams*
- ½" sealed cartridge bearings
- 1.87" bearing spacing
- Hand ring compatibility: 540mm/559mm 36H – 6-tab
559mm/590mm 48H – 12-tab

* 559mm 48H wheel without hand ring and tire

Available in **24" (540mm) 36H, 6-tab**

**25" (559mm) 36H, 6-tab
48H, 12-tab**

26" (590mm) 48H, 12-tab

Hub Features

- * Contoured hub cut-outs reduce weight
- * Spoke retention groove ensure spokes do not turn and wheels stay true
